| Other relevant information you think CUT International Relations Office (IRO) should know concerning student exchanges |
| We would encourage your students to bring a friend along with them. Students are certainly not limited to study units within the school of architecture. Architecture is a brilliant program taught in Launceston campus which is in the north of Tasmania's island state, whereas most of our engineering programs are taught at our Hobart campus in the States Capital City. Almost 50% of Tasmania is National Parks or World Heritage area. Many of our students enjoy making the most of this natural clear environment by hiking, cycling, bush walking, surfing, scuba- |

diving, etc. I would suggest look at the Discover Tasmania facebook and/or twitter account to get a real sense of what Tasmania has to offer.
